👤 PROFILE

- Motivated IT Specialist with 3+ years of experience in technical support, system administration, and network operations across enterprise environments. Skilled in Microsoft 365, Active Directory, DNS/DHCP, Windows Server, and firewall management (Sophos, FortiGate), with a strong ability to troubleshoot complex issues and maintain secure, high-availability systems.
- Leveraging AI tools such as ChatGPT and Claude, along with AI Agents, to automate workflows, enhance productivity, and accelerate troubleshooting. Experienced in developing automation scripts using PowerShell and Python to streamline IT operations, reduce manual workload, and improve system efficiency.
- Adaptable and fast-learning professional with strong communication skills, open to international opportunities and diverse work environments.

🎓 EDUCATION

Bachelor of Information Technology
Matrouh University
09/2020 – 06/2024 | Marsa Matrouh, Egypt
Graduation Certificate ✓
Military Status : exemption

📁 PROFESSIONAL EXPERIENCE

01/2026 – Present Alexandria, Egypt	LC Waikiki ✓ IT Specialist • Provided L1/L2 support for 200–280 users, achieving high resolution rate and reducing downtime. • Automated repetitive IT tasks using new Tools, reducing manual workload by 30% • Managed Windows systems, user accounts, and access permissions, ensuring secure and uninterrupted operations. • Supported Microsoft 365 services (Outlook, Teams, OneDrive, SharePoint). • Troubleshoot LAN/WAN, Wi-Fi, printers, scanners, and POS systems in a high-demand retail environment. • Monitored system performance and handled incidents to minimize downtime. • Contributed to improving system stability and user satisfaction through proactive support.
09/2024 – 12/2025 Giza, Egypt	Embassy of the Republic of Yemen System Administrator • Administered IT infrastructure supporting ~100 users, including Microsoft 365, Active Directory, DNS/DHCP, and Group Policies.

- Configured and managed enterprise firewalls (**Sophos, FortiGate**) and **VPN connections** to enforce security standards.
- Managed **Windows Server 2022** environment (Domain Controller, WSUS, WDS).
- Implemented **IT General Controls** and supported internal audits.
- Automated administrative tasks using **PowerShell scripts**, improving operational efficiency.

07/2024 – 10/2024
Cairo, Egypt

Business Code

IT Technical Support Specialist

- Supported **IT operations** for environments serving 200+ users across **Business Code & ICE**  projects.
- Installed and configured Cisco network devices, VLANs, and enterprise infrastructure.
- Provided **L2 support for network, firewall**, and connectivity issues.
- Managed hosting environments (**cPanel, DNS, domains**).
- Assisted in vulnerability assessments and applied security patches.

09/2021 – 12/2023

FreeLancer

IT Specialist

- Provided **global remote IT support** via ticketing systems and remote desktop tools.
- Handled **user onboarding/offboarding**, access permissions, and hardware preparation.
- Created **knowledge base articles** and user guides to streamline IT support processes.
- Performed **hardware and software troubleshooting** for desktops, laptops, and peripherals.
- Managed basic **network configurations** and security updates for small business clients.

SKILLS

System Administration

Active Directory (AD), Group Policy Objects (GPO), DNS, DHCP, WSUS, WDS.

Cloud & Virtualization

Microsoft Azure, AWS (Basics), VMware ESXi, Hyper-V, Proxmox, Docker, Terraform (IaC Basics).

AI Tools & Productivity

Canva, Gemini, Antigravity, Clawdbot, ChatGPT, Claude, AI Agents AI-assisted troubleshooting, scripting, and documentation

Infrastructure & Hardware

Server Installation, Rack Mounting, Structured Cabling, UPS Systems, Printers & Peripherals, CCTV, AV Systems

Networking & Security

TCP/IP, VLANs, LAN/WAN, Routing & Switching, VPN, Network Access Control (NAC), Firewall Management (FortiGate, Sophos), MFA, Backup & Recovery.

Automation & Scripting

PowerShell (Automation & Administration), Python (IT Automation), Workflow Automation (n8n, make.com ) , Task Automation, System Optimization

Tools & Platforms

Microsoft 365, Odoo ERP, cPanel, Jira, Imaging Tools (Acronis, Clonezilla)

Documentation & IT Operations

ITIL (Incident, Problem, Change Management), Technical Documentation, Audit Reporting, Notion, Microsoft Office

PROJECTS

Network Design & Implementation [↗](#)

Designed VLANs, routing protocols, and firewall rules using Cisco Packet Tracer.

UDP Network Discovery [↗](#)

Program to discover other devices.

Network Sniffing [↗](#)

Captured and analyzed traffic using Wireshark for troubleshooting and optimization.

IT Automation Tasks [↗](#)

Built a command-line IT automation toolkit in Windows Batch to streamline routine support operations and troubleshooting workflows.

Network Security Lab

Configured FortiGate/Sophos firewalls, VPN tunnels, and access control policies.

KEY ACHIEVEMENTS

Excellence in Networking Projects - Matrouh University, 2023/2024

Supported IT infrastructure for 280+ users in retail environment.

Implemented firewall rules improving network security.

Automated administrative tasks using PowerShell scripts.

Reduced incident resolution time through proactive monitoring.
